

Solvent - Free
 No More Highly Toxic Chemicals
 No VOCs

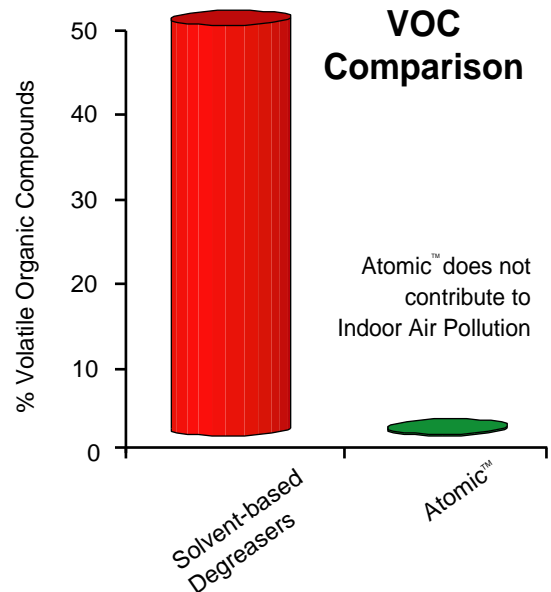

What are the Benefits of Using Atomic Fire & Soot Cleaner & Degreaser to Clean up Fire Damage?

Benefect® Botanical Atomic Fire & Soot Cleaner & Degreaser is a high performance Cleaner & Degreaser formulated to seek and remove particulate at the atomic level with minimal agitation. This labor minimizing feature makes it ideal for fire & smoke damaged contents & surfaces, such as: walls, floors, woodwork & appliances plus other porous & non-porous materials & surfaces commonly found in fire or water damaged sites. Atomic is also ideal for removal of filtration lines by doorways, baseboards & registers.

How Can a Degreaser be Solvent - Free?

Atomic is made from botanically based ingredients & next generation dynamic chemistry that enables plant based ingredients to safely outperform synthetic solvent products. Atomic contains no VOCs, solvents, petrochemicals, dyes, fragrances, phosphates, alkyl/nonyl phenols or other hazardous or unnecessary ingredients.

How Can a No - Scent Product Remove Fire Odor?

By removing the majority of soot particles at the source, Atomic dramatically reduces the scent left from fires. If an added scent is desired, it is recommended that only natural extract based deodorants are used. Synthetic deodorants may affect product performance.
